Purchased from Westphal Sale in 2017. Chosen for the BW to WW and YW spread and the carcass performance, as well as the natural thickness and that he exhibited as a yearling. A solid, easy moving bull, rooted on a strong base of good feet and legs. These cattle typically have good frame and growth. The females are framey and angular; the first representative numbers of them are calving this spring.

MGS:	BECKTON	ACCENT A134 E3	RATIO:				93	107	104								137			108	110

Westphal 2018 sale. This bull had all the things I look for in terms of performance and carcass. He is moderate in frame and stamps his progeny with great thickness and muscularity, while maintaining moderate BW and frame. The 2019 calves were from 1st calf heifers with virtually no calving issues.

MGS:	LOOSLI	RIGHT KIND 107	RATIO:				97	100	100								100			102	110

Pick of the Gibbs Red Angus 2018 lineup. Chosen for his overall phenotype, the moderate BW, overall balance of the EPDs, the strength of the growth and Marb indicators. Gibby is moderate in frame, with great length and depth, large testicles. Progeny are long spined and exhibit good muscle pattern, females are broody; first ones calving this spring.
